

# Ethereal

Music & Lyrics: Lukas Lundh

Are you ethereal?  
Frequencies transcending human form  
Are you ephemeral?  
atomic dormant neural energies

Beyond  
In stasis  
Anywhere and here

Go on  
The segments  
Disregarding spacetime

Linking the data streams  
Modulating singularity  
Not at all simplistic  
Freeing the concept of life

Sincere  
and knowing  
I will let you in

No fear  
Acceptance  
Instant affection

Are you corporeal?  
Or just an image in my mind?  
Will you be cynical?  
Processing and translating code

Beyond  
In stasis  
Anywhere and here

Go on  
The segments  
Disregarding spacetime  
You'll be fine

I will let you in  
I will let you in

A soulless creature  
But still more human than most  
Abomination  
Or just another miracle

Are you ethereal?  
Frequencies transcending human form  
Are you ephemeral?  
atomic dormant neural energies

Ethereal
